del cinema”

Fritz Lang... citazioni

“Il primo regalo che il cinema ci ha fatto è stata la riscoperta del volto umano, le cui espressioni tragiche o grottesche, minacciose o felici non ci erano mai state mostrate così vicino...” (1926)

«Le doti del regista devono essere universali: deve cioè possedere le qualità più spiccate di ogni espressione artistica. Deve avere lo sguardo del pittore per il quadro, la sensibilità per le linee dello scultore, il senso del ritmo del musicista e la concentrazione spirituale del poeta. Ma gli ci vuole anche qualcosa d'altro, una dote tutta peculiare: il senso del tempo! Per me senso del tempo significa la capacità di dar rilievo, comprimere, aggiungere intensità, mirare a uno scopo, far centro.»

(Fritz Lang, La moderna regia cinematografica, in «Filmbühne», aprile 1927.)

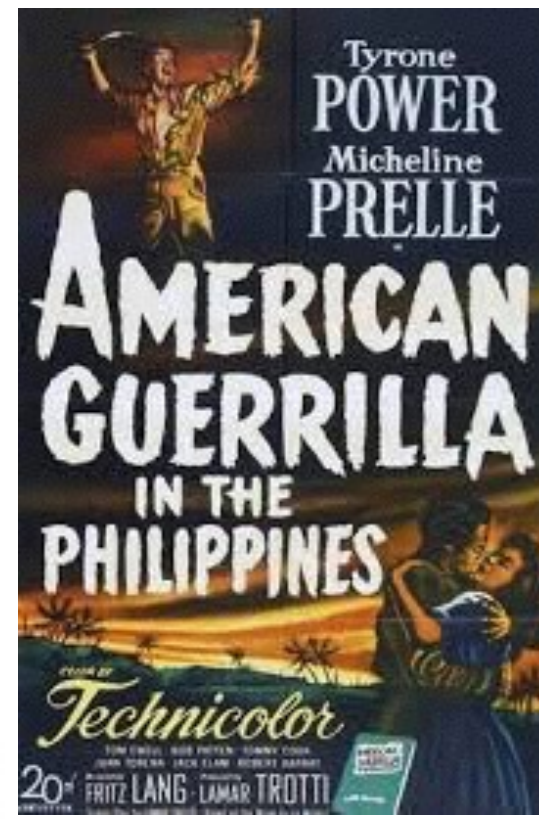

Fritz Lang... citazioni

«Innanzitutto dovrei dire: io sono una persona che guarda. Recepisco le esperienze solo attraverso gli occhi...»

«Sono molto felice quando faccio un film. Non è una seconda vita per me, "è la vita". Forse è per questo che mi disinteressa del film una volta che è stato scritto, girato, montato. A quel punto non posso più fare niente per lui: il film ha una sua vita propria e non fa più parte della mia.»

(Fritz Lang, La moderna regia cinematografica, in «Filmbühne», aprile 1927.)
