

Questions To Ask Your Dentist About Invisalign

Invisalign are the best option to get a beautiful smile without even being noticed by anyone until and unless you tell them about Invisalign. Undoubtedly, Invisalign is better than other options for correcting misalignment and other dental problems.

But, you may have many questions that come to your mind with Invisalign. You can also discuss different treatment options with your [Florida orthodontic specialists](#) when you get clear aligners.

You can get a beautiful smile with Invisalign, so let's start with some of the questions that you are thinking about Invisalign.

How will the Invisalign treatment start?

Your treatment will begin as you make an appointment with the **sunny isles beach orthodontist**. Your dentist will first scan your mouth and teeth and take an impression or mold to create a custom set of Invisalign. The aligner is just made for you as it is specially designed for you. Your orthodontist will also answer any questions and give you instructions.

How long will I have to use Invisalign?

The time may vary depending on how you keep your aligners, and mostly, it takes around 10 to 12 months to complete the whole treatment process. Your dentist will provide you with the trays to change them in approximately two weeks. You have to wear your aligners regularly for at least 22 hours every day, and if you fail to do so or do not switch to the new set of aligners every two weeks, it may take longer in your treatment. It depends on the patient.

How much money will my treatment cost?

[Invisalign cost in Miami](#) can depend on what kind of treatment you need. Therefore, many dental insurance plans cover Invisalign treatment. So, before the treatment, ask your provider about it. You can save a lot of out-of-pocket expenses with the insurance.

Is it necessary to visit the dentist during treatment?

Invisalign has a significant benefit in reducing the number of dentist visits, unlike braces. But you should ensure that everything is well with your Invisalign for that you at least schedule a check-up every six months. Schedule an appointment every two or three months so the dentist can see your improvement, and if needed modifications, your dentist will do it.

What if you break or lose aligners?

They can be lost if you do not keep them safely in their case. When you eat or clean your teeth, please keep them in their case and clean them too. If you remove them at night, ensure you do not throw them anywhere, or you will misplace them or become dirty.

Also, remember aligners are not mouthguards; instead, use a real mouthguard to protect your teeth when you play sports.

To clean them, use a soft bristle toothbrush and clean them gently. A new Invisalign will charge more, so it is better to keep the one safe to prevent damage.

In Conclusion:

Keep them clean and safe if you are undergoing the Invisalign treatment or taking it. Book an appointment to consult with your **Invisalign north Miami beach** about the Invisalign treatment.
