

Why You Should Take Your Kids To The Dentist?

When it comes to visiting the kids' dentist near me, Dental Phobia alias Dental Fear is the main reason for missing out on the appointment. There are several factors that contribute to building fear in the kid's mind and the most important parents' image about going to the dentist. Shocking? Yes, how parents think about the dentist matters as it will set the reputation for the kid.

As per some major studies done in the dental industry around, 9% to 15% of children avoid seeing the **kids orthodontist** because of not being in a comfortable spot, i.e. about 30 million toddlers just hate seeing the [best kids dentist near me](#). In a survey polled by one of the leading brands in the dental industry - Dental Health Foundation, it's revealed that 36% of those are not regular with their dental appointments.

Below mentioned are some factors that may create anxiety in kids:

- Awkward dental setting
- Inadequate preparation and unfriendly behavior
- Fear of dental tool
- Fear of torture or history of a painful event

In this article, we are going to discuss a few of the importance of taking your child to [a childrens dentist](#) without fuss.

You need to take your children to the dentist when the first tooth erupts or by the time they reach 7 years. This is because - to promote good oral hygiene and keep tooth decay at the bay, for this healthy tooth and oral hygiene you need the help of a **kid-friendly dentist**. And

also, your kid's first dental visit will help educate yourself on the proper ways of dental hygiene and the recommended fluoride intake based on the child's age.

Recognizing the importance of child oral health is a good start to maintain a healthy smile for many years to come but the very next step is finding the right dentist - but as you know it can be quite challenging. Prior to choosing the dentist, ask for a recommendation from your loved ones and your child's pediatrician, as they can suggest the best one. Once you narrowed down the available choices, take a tour to the **best kids dentist near me** and make a note on the following things - Are the dental settings are child-friendly? Are the staff accommodating all your needs & caring? And also, don't forget to inquire about dental knowledge, and experience in handling toddlers. They might also tell does he need the **braces for children's** treatment.

Your child's first dental visit is about paving the groundwork for good oral health. During your visit to the kid-friendly dentist that has everything you need, your dentist will discuss your child's oral hygiene. He/she will also talk about your child's oral health, risk of tooth decay, cavities, and other oral problems. Furthermore, your dentist will also provide you the complete information on how you can take care of your child's teeth at home.

Hope now you understand the importance of your child's first dental visit. Take your little one to the dentist early on! Not only, it will keep their pearly white teeth intact, it will also maintain their confidence level as they grow up!
