

HIDDEN GUN STORAGE FLOATING SHELF

Tools Required

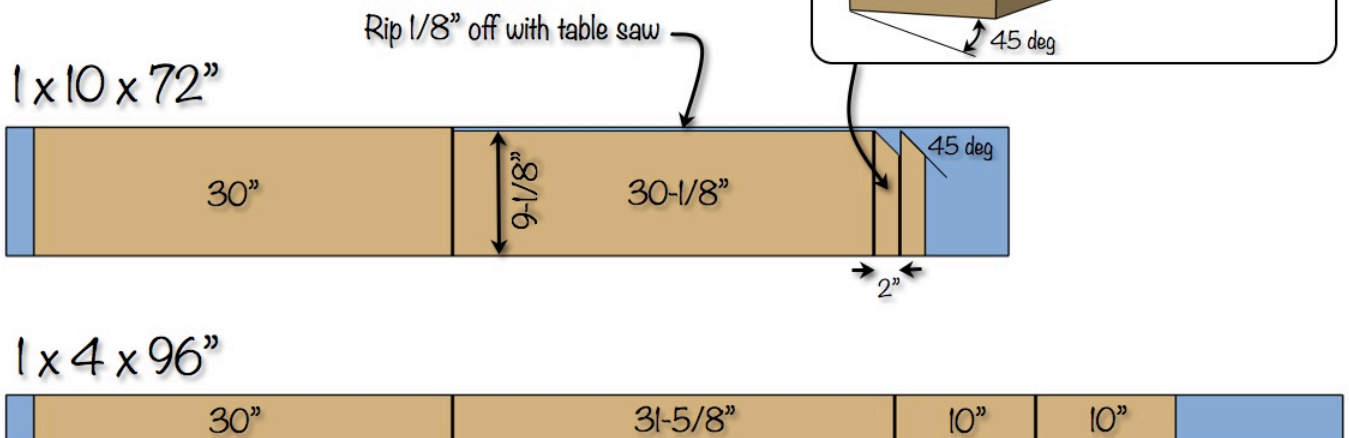

- Miter Saw
- Table Saw
- Drill
- Pocket Hole Jig
- Level
- Stud Finder
- Hearing Protection
- Tape Measure
- Pencil
- Safety Glasses

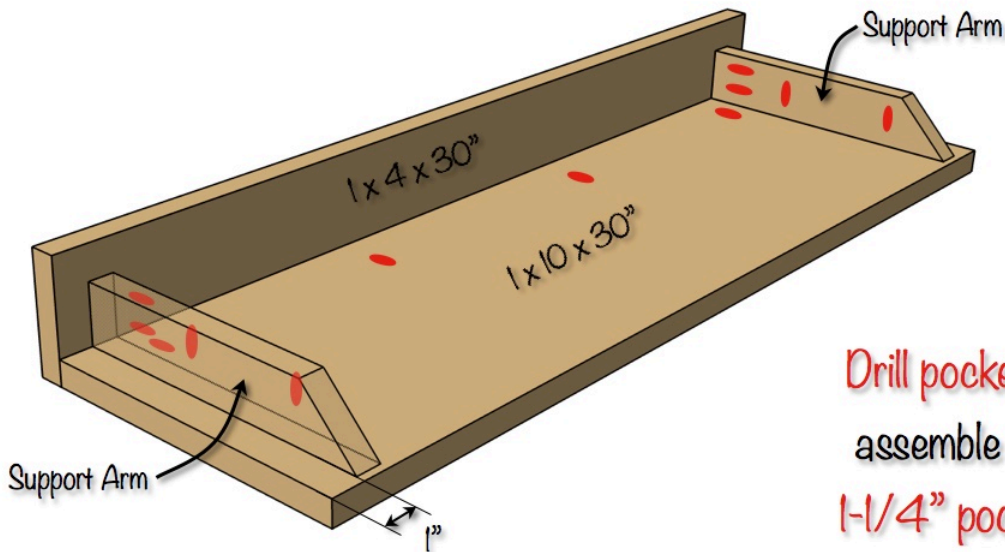

Materials

- 1 x 4 x 96" Pine; Common Board
- 1 x 10 x 72" Pine; Common Board
- 1-1/2" x 30" Continuous Hinge
- Left Hand Friction Lid Support
- Right Hand Friction Lid Support

Cut List:

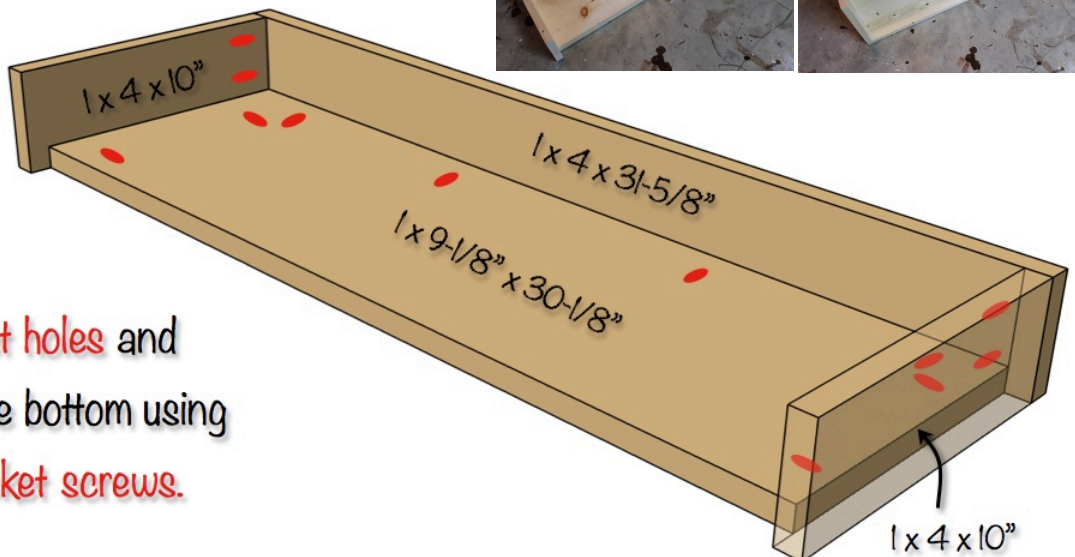

Step 1: Assemble Shelf

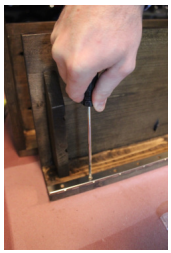

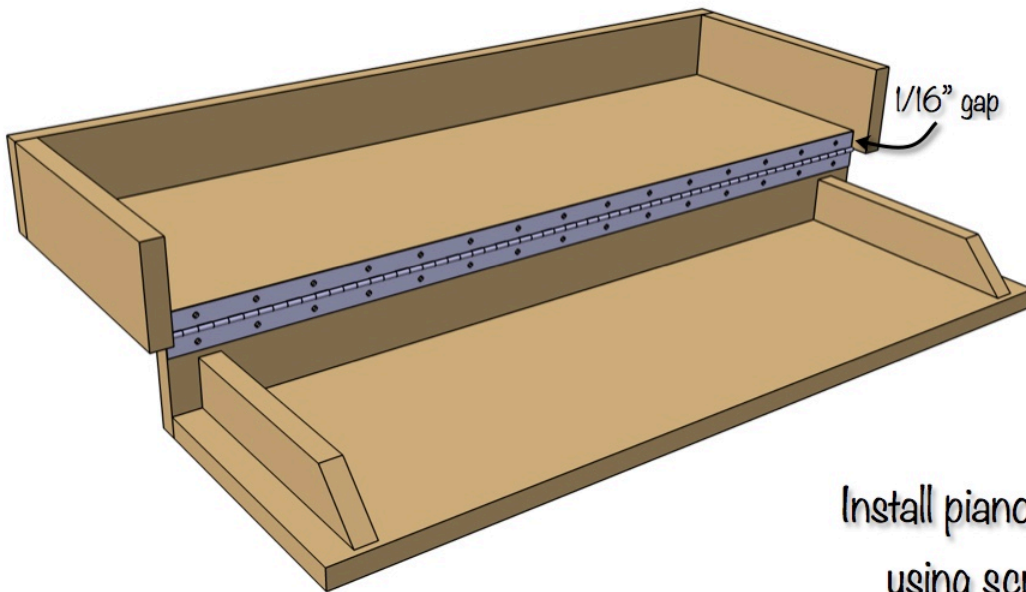

Drill pocket holes and
assemble shelf using
 $1\text{-}1/4''$ pocket screws.

Step 2: Assemble False Bottom

Drill pocket holes and
assemble false bottom using
 $1\text{-}1/4''$ pocket screws.

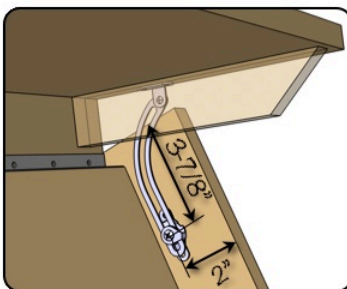

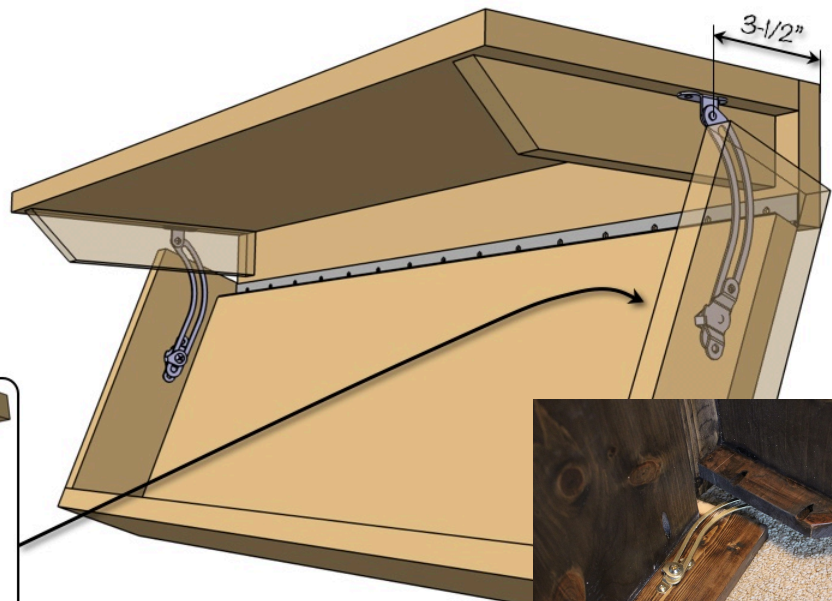

Step 3: Install Piano Hinge

Install piano hinge as shown
using screws included.

Step 4: Install Friction Hinges

Install friction hinges as
shown on both sides.
Adjust friction to hold
false bottom closed.

MOUNTING:

First, find the perfect spot for your new secret shelf and then mark a level line at the height you would like to mount it.

Next, use a stud finder to locate and mark two studs. Mount the secret shelf using two 2-1/2" wood screws per stud.
