

Empowering  
Learning:  
Windows 8.1  
Applications for  
Education.

# Contents

- Windows in education today
- Meet the new Windows

Engage. Inspire. Create.

Designed for  
21st century learners

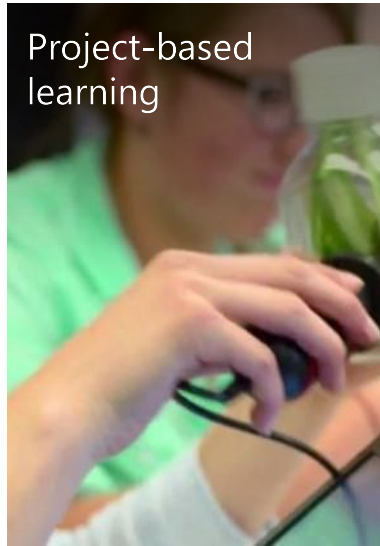

The power of a PC  
with the mobility of a tablet

Easy to deploy and  
manage

Classroom  
management

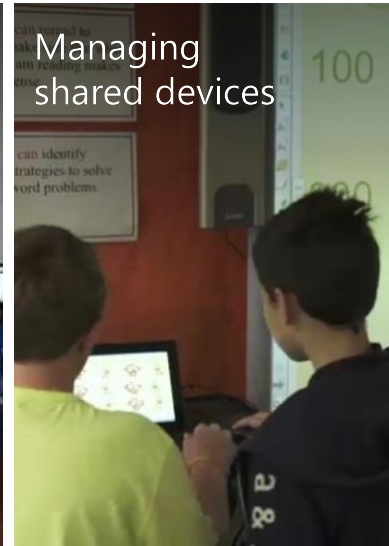

Project-based  
learning

Flipped  
classroom

Deploying  
1:1 devices

Managing  
shared devices

Collaboration. Communication. Critical Thinking. Creativity.

## Designed for 21st century learners

- Powerful learning tools for consuming, creating and producing knowledge
- Intuitive interface and interactive learning experiences
- Accessibility and ease of use features for learners of all abilities

## Project-based learning

## Flipped classroom

## The power of a PC and the mobility of a tablet

- “Anytime, anywhere learning” - access to content online and offline - on any device
- Touch, stylus, mouse and keyboard enable modern and traditional learning experiences
- Lightweight portable devices with USB
- Full power of the web with Flash enabled content

## Classroom management

## Easy to deploy and manage

- Easily supports all deployment models including shared, one-to-one, BYOD and blended
- Compatible with the widest range of devices, applications, and resources
- Consistent, controlled, and protected learning environment

## Deploying 1:1 devices

## Managing shared devices

# Windows apps for Edu

Engage students.  
Increase productivity.

- A broad and growing range of K-12 applications
- Rich app experiences, both online and offline
- Desktop application compatibility
- Support for Flash-based content on the web
- Built-in accessibility features
- Build custom apps with less effort

# Demo

# Empower education with the Microsoft advantage

## More productive

- Combines the power of a laptop with the mobility of a tablet
- Best OS for Edu supports all types of applications: web, modern, and traditional
- Provides learners at every level the technology needed to create, collaborate and communicate

## More complete

- Provides an end-to-end solution for schools
  - ✓ price-competitive devices
  - ✓ wide-range of educational applications including Office 365 cloud services
  - ✓ professional development and product training curricula
  - ✓ seamless integration with existing environments

## More manageable

- Easily supports all implementation models including shared, one-to-one, BYOD and blended
- Integrated device management and institution-grade security
- Unparalleled privacy and safety

Thank you.
