

COLLECT WASTE WITH US !

Today , we want to awareness people about sea pollution. Indeed , if it continues to increase , marine animals will be in danger ! It's a real environmental issue !

As a consequence , sea pollution provokes disappearance of marine animals , the collision of ships provoke oil slick , produce chemicals.

Sea pollution doesn't stop increase and it's a real problem to marine animals. For instance , plastic wastes provokes disappearance of marine animals such as dolphin , tortoise or fish ! Marine animals are in danger ! Moreover , people don't throw their waste in a garbage can , a lot of wastes are in the sea !

To awareness people about sea pollution , why don't we put garbage can on the beach ? It will decrease sea pollution ! How about organize a demonstration to defend this cause ? We ought join an association to speak environmental issue ? It's will a great idea !

All in all , We have organized a demonstration to fight sea pollution . The demonstration take place Saturday , On May 15 th at 15:00 pm in front of the beach of Marseille ! We count of you !
