THE POLAR FOX

The polar fox don't to escape to tje global warming if we don't to be have now, they will be go to disapear and they to suffer the poaching!

The umans hunting the polar fox for there coat por to make clothes but Norway, Sweden and Finland, the poaching is illegal since 1940, The center of reintroduction are built in 2018 on they countries for to help the species of polar fox of the poaching and the global warming.

If the global warming continue to increase, the polar fox

would go more and more to the North.The melting of ice generate many species to die if the ice cap melt, they will fall in the wather so can drawning.

The auther fox profite por to steal they terrritory and hunting the polar fox and the polar fox can't to hunting they prey.

We can go to <u>Arctic Fow Togethey</u> it's a compaigne for protect the polar fox and we can reduce the rapport of global warning.

For me, I can spell Arctic Fox Togethey around me and I can behave a my level for the global warning.
