

# DEFORESTATION!!!

The causes you want to defend deforestation is decrease in forest area .

The causes of the problem are construction building represents about 8 % deforestation and mining activities would be

responsables about 6 % forest loss. The problem they construction building. The cut trees for construction building and he cut trees for to manufacturing papers or chocolat. Who cut trees for to manufacturing papers ? If we must stop to cut trees .

The risk deforestation are because floods and deforestation a too impact very strong in climate change . Firstly , they floods in they cities can provoke the dead people .

The solutions are reduce energy consumption and stop producing chocolate and palm oil . If people reduce energy consumption we would consumption . Stop cut the trees .

The suggest an action are create association help of the forest because the people destroyed the planet . And make association for support protection of forest . He had be solidarity for help the planet .
