

# YOUR BUTT YOUR CHOICE

*The butts is a very polluting waste and causes many environmental impacts.*

This pollution is because of the smokers who throw their butts on the ashtrays in town.

It contains about a hundred harmful substances that contaminate water, cur and soil at the same time.

Moreover they generate damages in terms of deforestation, CO2 emissions. The butts are the main source of ocean pollution.

As solution to this problem we can first consider increasing smokers awareness.

If we made this maybe the smokers think more to consequences and doesn't throw their cigarette butts at the floor.

Maybe we can distribute a pockets ashtrays.

It exists many solutions to solve this problem but first of all you need the desire to save the planet.

If this problem expand, the planet will be in really big danger.

Why we doesn't make trash can who is separate in two parts allowing to discuss between two arguments. Thus their cigarettes butts could them to answer at this discuss.

Our action (your cigarette butt, your choice) allowed to avoid the pollution way more fun.
