LONDON MUSEUMS

☆ Read the definition and identify a museum :

1.: It is a very famous museum in London. It has objects from many countries. You can see old things from Egypt, Greece, and Rome. It is free to visit.
2.: It is a small museum in London. It is about Sherlock Holmes, a famous detective from the books of Sir Arthur Conan Doyle. In the museum, you can see his apartment at 221B Baker Street and many objects from the stories.
3.: It is about nature and animals. You can see dinosaur skeletons, animals, and rocks. It is a good place for families and children.
4.: It is about science and technology. You can learn about space, machines, and inventions. There are many interactive activities.
5.: It is a famous wax (= *cire*) museum in London. You can see wax statues of celebrities, actors, singers, and famous people from history. The statues look very real.
6.: It is an art museum. It has many famous paintings from Europe. You can see paintings by Van Gogh and Leonardo da Vinci.
7.: It is a museum in London about ships and the sea. You can learn about British ships, sailors, and sea history. It has maps, models of ships, and old objects from the sea.
8.: It is a museum of modern art. It has paintings, sculptures, and contemporary art. The building was once a power station.
9.: It is the place where Winston Churchill and the British government worked during the Second World War. You can see the rooms and learn about the war.
